New Cookbook & Local Family History titled "Old Cabins and New Cooks"

We invite you to participate in the creation of this most exciting funding project. There has been great interest in the history of our community as well as the many local family stories that have enriched Cooke City & the surrounding areas.

What better way to share your wonderful family legacy than in the pages of vintage photos, family stories & private family recipes? This project is funded by the Cooke City Historical Group. For detailed information & registration forms, please contact the Chamber or Dee Smith or Joye Kohl. You do not need to be historically connected to participate. We will be most happy to help you document your home &/or place of business. We hope to publish next summer & would very much like to receive your information as soon as possible.

The Forest Service has reopened access to the burn pile located in Cooke City. The burn pile is for slash material only. The Gardiner District intends to work closely with the community in the near future to determine how to ensure that refuse being dumped is burnable or if other options exist. Please call the Gardiner Ranger District if you have questions at (406) 848-7375.

The Program

The Northern Rocky Mountain Resource Conservation & Development Area and Gallatin, Park, and Meagher County Extension offices have joined forces to assist landowners with creating defensible space around their homes to reduce the risk of catastrophic wildfire and provide management practices that increase forest health. The program provides technical assistance for landowners to develop and implement a hazardous fuels mitigation plan. Through grant funding we are able to provide a 50% cost share to landowners who implement the plan. The cost share assists landowners with paying for fuels reduction work (clearing, thinning, and trimming vegetation). County professionals provide direct technical assistance to guide landowners through this process.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Cooke City Interim Requirements

Our water system is in violation of a drinking water standard. Even though this is not an emergency, as our customers, you have a right to know what happened and what we are doing to correct the situation.

On May 1, 2002, the Montana Department of Environmental Quality classified our water system as being under the direct influence of surface water and ordered us to filter the water in addition to disinfecting.

What should I do?

- You do not need to boil your water. A home filter will not necessarily solve the problem, because not all home filters protect against parasites. Call NSF International at 1(800) NSF-8010 or the Water Quality Association at 1(800) 749-0234 for information on appropriate filters.
- People with severely compromised immune systems, people with an infant, and some elderly may be at increased risk. These people should seek advice about drinking water from their health care providers. General guidelines on ways to lessen the risk of infection by microbes are available from EPA's Safe Drinking Water Hotline at 1-800-426-4791. If you have specific health concerns, consult your doctor.

What does this mean? This is not an immediate risk. If it had been, you would have been notified immediately. We do not know of any cases of contamination. However, until improvements are made, there is an increased chance that disease-causing organisms could contaminate the water supply. *Inadequately treated water may contain disease-causing organisms. These organisms include bacteria, viruses, and parasites which can cause symptoms such as nausea, cramps, diarrhea, and associated headaches.*

What is being done? Our Water System will be monitoring turbidity (cloudiness) of the water twice daily, and submitting one water sample on Monday and one on Wednesday to check for the presence of fecal coliform (e-coli). All findings will be reported to the State DEQ on a weekly basis. The District will also post the results of the weekly water samples in the Cooke City Weekly Newsletter published each Friday.

Until this is completed we will post a notice similar to this every three months.

For more information, please contact Patti Smith, PO Box 798 Livingston, MT 59047 or 406-539-7149.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Cooke City. Montana PWS ID#: MT0000187.

Date distributed: August 14, 2009.
